

Achieving better envelope airtightness in practice

Recent Norwegian training and dissemination schemes

Wednesday 9 November 2011

REGISTER NOW

FREE – Participation to the Webinar is free

10:00-11:30 (Brussels, Oslo)

09:00-10:30 (London, Lisbon)

11:00-12:30 (Athens, Bucharest)

Registration is required: A link to join the webinar will be included in the email confirmation

Following the recast of the energy performance of buildings directive published in May 2010, EU countries will have to implement regulations to increase the number of nearly zero-energy buildings (NZEB) in the next few years, and to generalize nearly zero energy targets in new buildings and major renovations. In most European countries, building and ductwork leaks have a significant impact on energy performance and indoor climate and therefore merit special attention in the context of this directive.

The objective of this webinar is to discuss the lessons learnt from recent hands-on training and dissemination schemes implemented in Norway, which may inspire other initiatives.

This webinar is part of a series of training webinar organized within the TightVent Europe platform. For more information about TightVent Europe and partners, visit our website at www.tightvent.eu.

Programme

10:00 **INTRODUCTION TIGHTVENT TRAINING WEBINARS**

Rémi Carrié and Peter Wouters, INIVE, Belgium

10:15 **THE “HOLD TIGHT” CAMPAIGN**

Guro Hauge, Lavenergiprogrammet (Low Energy Programme), Norway

10:35 **Questions & Answers**

10:45 **ENCOURAGING EARLY AIRTIGHTNESS TESTING BY CRAFTSMEN**

Tormod Aurlien, UMB, Norway

11:00 **FUTURE STEPS & NEW INITIATIVES**

Peter Schild, SINTEF, Norway

11:15 **Questions & Answers**

Chairperson: Rémi Carrié, INIVE, Belgium

11:30 **End of the webinar**

Cost and registration

The participation to the webinar is free, but requires you to register for the event. The webinar will be limited to a maximum of 200 persons. To register, please click [here](#) or visit inive.webex.com.

What is a webinar?

A webinar is a conference broadcasted on internet. To follow a webinar you must have a computer with a sound card. Once logged in the "conference room", you will be able to see the slides of the presentation and to hear the speaker comments. You will also be able to ask written questions to the speakers, and to answer on-line surveys.

Hardware, software

Our webinars are powered by WebEx Event Center. The only thing you need is a computer with a sound card and speakers. Before you can log in the "conference room", WebEx will install the required application. If you are not a WebEx user, be sure that you are allowed to install application on your computer, and join the event at least 15 minutes in advance. Visit inive.webex.com for more information.
